## Customize Access Plan: Specific Patient Needs for their Lifetime

*Lifetime for a Lifetime: Planning for Your Vascular Access*

### Appendix

#### My Access Plan

Use the table on the next page as a guide through the eight steps of your access plan. You can keep track of the steps along the way.

- A. Review all the steps, and pick which step you are on.
- B. Check with your care team to make sure you picked the right step.
- C. Work together with your care team to get things scheduled.
- D. Put the dates on the checklist.
- E. If you miss a date or it changes, your care team will work with you to make sure you stay on track.
- F. Each time you complete a step, write in the date it was done.
- G. When you are on step 7, you can start doing your daily one minute access check.
- H. Keep up the good work!
